WORK EXPERIENCE

[Jisr HR](#), Hadhramout, Yemen — *Front-end Engineer*

Frontend Senior Engineer - React-js, Payroll Squad at Jisr May 2019 - present

- Led a team of developers in designing and implementing highly scalable and performant web applications using React.js .
- Developed and maintained reusable components and libraries for efficient and consistent user interface implementation .
- Developed and maintained core product services.
- Implemented responsive designs and optimized applications for multiple devices and screen sizes.
- Collaborate closely with product managers and designers to translate business requirements into technical specifications and deliver high-quality software solutions..
- Mentored junior developers by providing guidance, knowledge-sharing sessions, and conducting training workshops on React.js and related technologies.

EDUCATION

Hadhramout University, Bachelor in Computer Engineering

Hadhramout, Yemen

Attended the College of Engineering and Information Technology from 2015 to 2019 as a full-time student. Consistently achieved academic excellence, ranking second in my class during the first two years and earning the top position with excellent grades during the last three years.

Created an educational communication platform as a graduation project, using the Ruby on rails framework with Vanilla JavaScript to develop a Front-end application for seamless communication between university management, teachers, and students.
